Michele Cespa

michele.cespa@gmail.com | m-cespa.github.io

Education:

PhD Statistics & Machine Learning, University of Oxford [2026–2030]
Jesus College, part of StatML CDT

MSc Artificial Intelligence, Imperial College [2025–2026]
Salter's Fellowship Scholar

- Grade: Distinction, ranking 1st in cohort of ∼70
- Relevant Modules: Information Theory, Probabilistic Inference, Non-Euclidean ML, Deep Learning
- Group SWE Project: LLM Uncertainty, Robustness & Security with OLMo (see here)

BA (Hons) Natural Sciences, University of Cambridge [2022–2025]
Girton College

- Grade: 1st Class, ranking 14th in cohort of 129
- Relevant Modules: Statistical Physics, Electrodynamics, General Relativity, Soft Matter Physics
- Courseworks: Dynamics in Complex Fluids, Phase Locked Loops, Physics Informed Neural Networks
- Activities: member of both the Odyssey Fellowship and Cambridge AI Safety Hub Fellowship

City of London School [2015–2022]
Academic Scholar

- A-Levels: (all A*) Physics (top of year), Chemistry, Mathematics, Further Mathematics

Experience:

Machine Learning Research Intern [2026]
MSc Thesis, supervised by Prof. Pedro A.M. Mediano alongside Prelego.ai

- Worked on ML models for hospital acquired rare disease prognosis
- Conducted research on: foundations of the XGBoost algorithm, unsupervised out-of-distribution adaptation and causal inference for model performance through treatment assignment bias

Meta Software Engineering Summer Intern [2025]
WhatsApp Team

- Fullstack iOS developer working on saved content in WhatsApp
- Learned C, Objective-C, Swift and Sapling (source control system similar to Git)

Research Intern, University of Cambridge [2024]
ARIA funded lab, Biochemistry Department

- Built Raspberry Pi operated bioreactors to study organism growth dynamics
- Wrote Python library to operate the reactors (see here)
- Learned about Koopman operator theory & Dynamic Mode Decomposition

Zero Gravity (charity) Volunteer [2024]

- Mentored and tutored an A-Level student applying to Natural Sciences (Cambridge)

Athena Tuition Tutor [2022]

- Tutored students aged 11-16 in Physics, Maths & Chemistry for 11+, 13+ and As Level exams

Achievements:

Salter's Fellowship Scholarship [2025]
Imperial College Dept. of Computing & Worshipful Company of Salters (£10,000)

Academic Scholarship [2023–2025]
Girton College, Cambridge (awarded after final year exams all three years totaling £1,200)

City of London School Scholar's Prize [2020–2022]
For excellence in A-Levels & GCSEs

Technical Skills:

Languages & Libraries: Python, C, HTML, PyTorch

Developer Tools: Git, GitHub, WandB, Linux

Misc:

Hobbies: Calisthenics, Electric Guitar
Languages: *Native:* English, Italian; *Intermediate:* Spanish, French
